## Geometric appoints Digitek as DFMPPro authorized reseller

**Mumbai, India, November 25, 2010:** [Geometric Limited](#) (BSE: 532312, NSE: GEOMETRIC), a leader in Product Lifecycle Management (PLM) solutions and technologies, today announced the appointment of Digitek, as its authorized reseller of its design for manufacturability product, [DFMPPro](#) in Korea. Digitek will distribute DFMPPro and will provide world class customer support to customers in Korea.

DFMPPro is a novel, automated design for manufacturing (DFM) review tool, that facilitates upstream manufacturability validation and identification of areas in design that are difficult, expensive or impossible to manufacture. It allows quick and in-depth examination of product manufacturability through advanced design rules for manufacturing processes like milling, drilling, turning, sheet metal fabrication, and injection molding. Working with most CAD platforms, DFMPPro is useful tool for design engineers to create manufacturable design.

“Korea promises to be great opportunity for DFMPPro. Together we are working to deliver the value of manufacturability in design to a large and growing customer base. Digitek is well placed in Korea to sell our products. We are sure that with Digitek’s market reach, our collective efforts will lead to greater penetration”, said Mr. Bhaskar Sinha - Senior Product Manager, Desktop Products & Technologies Geometric Limited.

Mr. Lee BJ President and CEO of Digitek said “First of all, I’m very pleased to launch an excellent product, DFMPPro in Korea market. My company, Digitek is one of the best PTC Platinum Partners worldwide and a leading vendor for CAD/PLM Solutions in Asia Pacific Rim as well as in Korea. Now most of companies are faced with the necessity of manufacturing data verification at the design and drafting stage of the product lifecycle. DFMPPro which resolves this dilemma for enterprises is a very important solution to improve product quality. We will do our best to give more satisfaction to the customers through a good relationship with Geometric. “

DFMPPro helps organizations leverage standard and organization-specific manufacturing knowledge to -

- Reduce time-to-market by reducing design to manufacturing iterations
- Improve quality by detecting defects
- Reduce production costs by promoting usage of design and manufacturing standards
- Improve innovation by capturing manufacturing knowledge for continuous improvement

DFMPPro is useful in many industry segments like Automobile, Aerospace, Consumer Electronics, Electronics Manufacturing Services (EMS), Medical devices and machinery related to Mining, Material handling and Process Equipment.

For further information about DFMPPro, please visit [www.dfmp.com](http://www.dfmp.com)

## About Digitek

Digitek is a leading vendor for CAD/PLM Solutions in Asia Pacific Rim as well as in Korea. Headquartered in Seoul, Korea, Digitek was incorporated in 2000 and obtained the PTC Platinum Partnership, PTC MSP(Maintenance Service Provider), PTC Windchill PSP(Preferred Service Provider) and PTC ATP(Authorized Training Partner) for the first time in the Asia Pacific.

From a wide-ranging business perspective, Digitek with PTC Partnership since 2000, closely gets the needs of its customers from start to finish and is ready to provide comprehensive PTC solutions as like Pro/ENGINEER, Windchill, Arbortext, Mathcad, ProductView to meet their challenges. A long-term partnership approach is one of its core competencies.

Digitek has been focusing on a successful implementation of PTC PDS(Product Development System) for customer needs to Create, Collaborate, Control, Configure and Communicate very quickly on a integral, Web-based architecture that supports today's global environment distributed.

Digitek has been also continuously growing with brilliant talent nurtured through vast service-delivery experience and diverse educational programs. Its goal is for customers to become leading companies in their respective industries.

## About Geometric

Geometric is a specialist in the domain of engineering solutions, services and technologies. Its portfolio of Global Engineering services and Digital Technology solutions for Product Lifecycle Management (PLM) enables companies to formulate, implement, and execute global engineering and manufacturing strategies aimed at achieving greater efficiencies in the product realization lifecycle.

Headquartered in Mumbai, India, Geometric was incorporated in 1994 and is listed on the Bombay and National Stock Exchanges. The company recorded consolidated revenues of Rupees 5.12 billion (US Dollars 108.1 million) for the year ended March 2010. It employs close to 3000 people across 11 global delivery locations in the US, France, Romania, India, and China. Geometric was assessed as CMMI 1.1 Level 5 for its software services and is ISO 9001:2008 certified for engineering operations.

Geometric's Desktop Products and Technologies (DPT) business develops cutting-edge point productivity solutions that enhance design and improve manufacturing operations. The end-user products from Geometric include CAMWorks®, eDrawings® Publisher, DFMPPro, GeomCaliper® and 3DPaintBrush™. The key technologies from Geometric are NestLib®, Feature Recognition (FR), GeomDiff and 3DSearchIT®. Geometric licenses these technologies to OEM partners and also designs and implements customized process solutions using these technologies for industrial customers.
