

End of Life (EOL) & End of Sale (EOS) Announcement for Geometric DFX

EOL Announcement Date: October
31, 2022

HCL announces EOL and EOS of "Geometric DFX" – the Standalone version of DFMPPro. The milestone events, descriptions, and dates for the affected product are shown below. Customers with active support contracts can continue to receive support per the terms and conditions specified in the support contract or opt for migration options provided below.

Event	Description	Date
EOLA – End Of Life Announcement	The date this announcement is being made public	October 31, 2022
EOS – End Of Sale	The last date the product will be available to purchase and support renewal	October 31, 2022*
EOM – End Of Maintenance	The last date after which HCL will no longer issue maintenance releases, bug fixes, patches, or updates. After this date HCL Engineering will no longer develop, maintain, or test the software. Minor Releases, Maintenance Release, and Patches will continue to be available through the EOM date.	Software release v7.0: October 31, 2022*
EOSL – End Of Support Life	The last date after which product support will no longer be available. Support may be renewed at any time within the Support Lifecycle, but must terminate as of the EOSL date	October 31, 2022*

* EOS, EOM and EOSL dates will be effective immediately on announcement and not at a future date. Customers have preferred CAD integrated versions of DFMPPro over the Standalone versions. HCL is accelerating the End of Support for this product due to availability of other options for active customers (see below).

AFFECTED PRODUCTS

Part Number	Description	Replacement Product
N/A	Geometric DFX	See Below

PRODUCT REPLACEMENT OPTIONS

HCL encourages customers to contact your HCL sales representative to learn more about the replacement options and to hear related offers and incentives that may be available. If you do not know your sales representative, please contact us at dfmpro.marketing@hcl.com. HCL will offer managed product service support to assist in your upgrade and ensure service continuity.

Migration options:

HCL recommends that customers select DFMPPro add-ons for associated CAD platforms, namely, DFMPPro for Creo Parametric, DFMPPro for NX and DFMPPro for SolidWorks. Early versions of DFMPPro for CATIA are also available and customers can email their sales representative or dfmpro.marketing@hcl.com for more details. HCL continues to support and enhance the DFX platform powering DFMPPro based on product direction and customer feedback.
